Module: Reimbursable Work Authorizations (RWA)

Frying Pan Shoals Light Tower Southport, NC Landholding Agency: DHS – Coast Guard Orlando Naval Training Center, Area C Orlando, Orange County, FL Landholding Agency: US Navy USACE Radio Towers Louisiana and Arkansas Landholding Agency: USACE

Reimbursable Work Authorizations (RWA)

- Presentation will begin at 12:00 pm EST.
- To connect your Audio using PC audio, click on the speaker icon. Speaker icon should be green.
- Audio will not be heard until after the presentation begins.
- Typed questions only, can be asked throughout the presentation, but will be answered in order following the presentation. Please use the Q&A pod (might have to enter 'Full Screen' mode to see Q&A pod).
- Presentation slides will be posted to the GSA website at http://propertydisposal.gsa.gov/Training

Reimbursable Work Authorizations (RWAs)

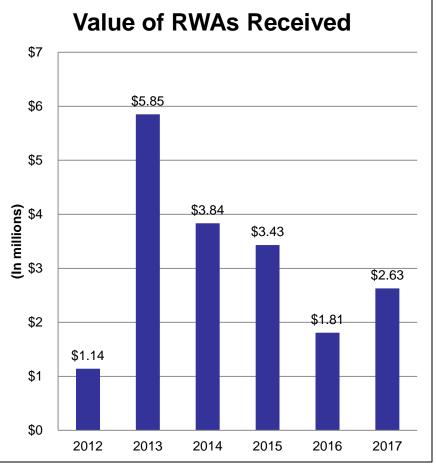

Webinar October 2017

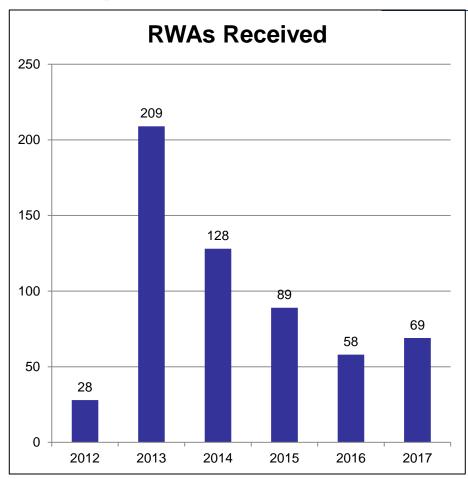

Which Real Estate Services can GSA provide to a LHA?

- GSA real property disposal services include the following:
 - Appraisals
 - Site Acquisition
 - Disposal Option Studies
 - Marketing Studies
 - Land Use Studies
 - Historic Compliance
 - Environmental Solutions
 - Land Surveys & Title Search
 - Outleasing

- Disposal Leasing
- Exchanges
- Training
- Retention/Disposal
 Studies
- Report of Excess
 Assistance
- Relocation Program
- Targeted Asset Reviews

Reimbursable Work Agreements

Note:

-A single RWA may have one project or multiple projects.

-Sharp increase in 2013/4 due to influx of Housing Assistance Projects from the Army Corps of Engineers.

What is a Reimbursable Work Authorization (RWA)?

- An agreement between GSA and a landholding agency (LHA) that identifies a service(s) to be completed by GSA. A RWA is the agreement that allows LHAs to obligate funds to cover the cost of the GSA provided service(s).
 - The RWA agreement is executed using form GSA 2957PD.
 - The electronic billing, collection, and transfer of funds is done via the Intra-Governmental Payment and Collection (IPAC) System.
 - Multi-task RWAs are usually supported with an overarching Memorandum of Agreement (MOA).

What is the purpose of a RWA?

- A RWA is a means for a LHA to contract for single or multiple discounted realty services supported by GSA blanket purchase agreements (BPAs), utilizing:
 - Triple discounted realty service contracts.
 - Nationwide coverage of local markets.
 - Respected and renown realty service providers providing any desired realty service.
 - RWAs are for actual costs.

What is the RWA Process?

- Step 1: GSA will develop the Statement of Work (SOW) in collaboration with the LHA, and create the Independent Government Estimate (IGE). If the LHA requires multiple services, GSA may set up a Programmatic Memorandum of Agreement (MOA), and utilize multiple RWAs.
 - SOW can be customized to particular Agency needs or unique property characteristics.
- Step 2: GSA will compete the SOW using a Blanket Purchase Agreement (BPA).
- Step 3: GSA will award the service and then conduct a conference call with landholding Agency and selected vendor.
- Step 4: The Contractor then conducts the contracted service(s).
- Optional Step 5: GSA can provide a review of the service, i.e., an appraisal report.

Completing the RWA Form

- A RWA is set up using RWA Form: GSA 2957 PD (REV. 10/2016).
- For assistance contact the GSA Zonal Office that is in the geographic area for the service or GSA Central Office for portfolio services.

RWA Form

The Funding Mechanics

An Overview of the Process

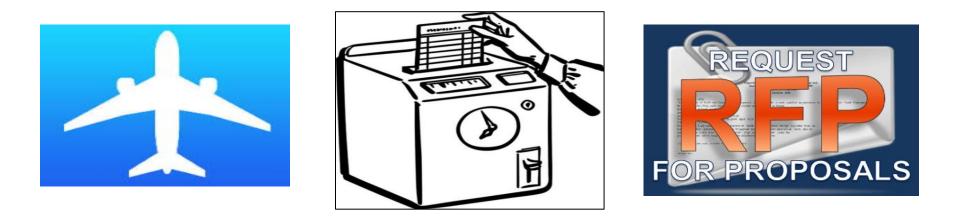

- When RWA is signed by both parties, GSA will process and return with an RWA #. This obligates funds on behalf of the LHA, but no funds are actually transferred at this time.
- As GSA incurs costs executing the tasks identified in the RWA, they are tracked by the agency's internal financial system.
- Near the 20th of the month, a bill is generated for all the RWA related expenses incurred over the previous 30 days.
- The bill is sent to the LHA, and then funds are collected/received through the IPAC system to reimburse GSA for those expenses (hence the term, "reimbursable").
- At conclusion of work, final bill is sent out, funds are collected, and any unneeded funds can be de-obligated by LHA.

Reimbursable Expenses

Actual Costs

GSA is authorized to collect for all actual costs, direct and indirect.

- The main costs are generally labor (per hour), travel, and contracts.

 A summary or rollup of these estimated costs will be provided to LHA on or before agreement on RWA.

Reimbursable Fund Types and Terms

Fund Years

Once RWA is executed (signed), the funds on the RWA are available for use for either 1 year or 5 years, and can cross fiscal years.

- NonSeverable RWAs are those with tasks that only provide value to the LHA when complete. These funds are valid for 5+ years upon official acceptance of RWA by GSA.
- Severable RWAs are those with tasks that are divisible into components where each component meets a separate client agency need (i.e., partial completion of scope of work still provides value to client). These funds are good for year 1 from GSA signature date.

Example: The Coast Guard sends GSA an RWA to complete a Phase II Environmental Site Assessment of a property. The RWA is received and processed on Sep 10, 2017, and the Coast Guard funding used is one year, FY17 money. As the task is non-severable, these funds are available to GSA until Sep 30, 2022.

Billing and Collections

- Bills are sent monthly on the 20th of the month, and include all expenses from previous bill.
- All bills are sent via the IPAC (IntraGovernmental Payment and Collection) system. A detailed bill is available at GSA's Vendor and Customer Self Service (VCSS) website; they can be provided via e-mail as well.
- The bill will show charges by line item (example below) for the month, as well as cumulative spending and RWA balance.

A Few Notes

- Many agencies utilize MIPRs, IAAs, or similar documents when they work with other agencies. However, GSA requires an RWA from client agencies to do reimbursable work. If necessary for the internal requirements of the LHA, GSA will sign a MIPR or IAA that has the same information as on the RWA, but those cannot substitute for an RWA.
- Once RWA task is complete, any unused funds are decommitted and "returned". The LHA cannot add new tasks to the SOW to use that surplus money.
- After initial fiscal year period of RWA is over, LHA may not materially alter or modify the Scope of Work.

Who do I contact at my nearest Regional Office?
